Doubly vaxxed (Moderna); I was a believer until...

Friends were killed/injured by the COVID vaccine

→ Full-time journalist

Written over 1,200 articles on vaccines and COVID

World's #1 "Misinformation superspreader"

**Largest clinical trial in human
history: 13 billion doses**

**...and all governments
worldwide are hiding
the key data**

Death-vax record

DOB:

DOD: <if died>

Sex:

Race:

COVID Vax date(s):

Causes of death (ICD-10 codes): <if died>

Comorbidities (ICD-10 codes): <if died>

New math

1 person died from COVID → **emergency!!**
500,000 died from vaccine → **n/a**

Other problems

1. Huge mistakes were made
 - a. Vaccines did complete opposite → killed millions
 - b. Masks are useless
 - c. Social distancing was fabricated in a CDC meeting
 - d. Lockdowns were counterproductive (cost lives)
 - e. Mandates are unethical due to risk (and make things worse)
2. Early treatments were the right approach but ignored
 - a. Simple, cheap, safe, and effective
3. Trust in the medical community, CDC, WHO was misplaced
 - a. Nobody has called for data transparency!?!
 - b. The medical community got it completely wrong about everything
 - c. No health authority will agree to open challenge
 - d. Censorship of scientific opposition is a HUGE problem
 - e. Failure to call out CDC for fabrication of the 6 foot rule, masks, natural immunity,
4. Vax elevates risk of dying from a large # of causes over 1 year
 - a. This is why it is so hard for people to “see”. Increases mortality ~10%/yr so it is hard to see, *especially since the governments hide the vax-death records*

This is the greatest medical disaster in human history

SOLUTIONS

Mandate data transparency for public health data

Hold public health officials accountable in public forums

Listen to the people you have been censoring
Ignore the people you have been listening to

NOT SAFE or EFFECTIVE

A worldwide Bayesian causal Impact analysis suggests that COVID-19 gene therapy (mRNA vaccine) causes more COVID-19 cases per million and more non-Covid deaths per million than are associated with COVID-19 [43]. An abundance of studies has shown that the mRNA vaccines are neither safe nor effective, but outright dangerous. Never in vaccine history have we seen 1011 case studies showing side effects of a vaccine (<https://www.saveusnow.org.uk/covid-vaccine-scientific-proof-lethal>). The

Results

A total of 2840 participants completed the survey between December 18 and 23, 2021. 51% (1383 of 2840) of the participants were female and the mean age was 47 (95% CI 46.36–47.64) years. Those who knew someone who experienced a health problem from COVID-19 were more likely to be vaccinated (OR: 1.309, 95% CI 1.094–1.566), while those who knew someone who experienced a health problem following vaccination were less likely to be vaccinated (OR: 0.567, 95% CI 0.461–0.698). 34% (959 of 2840) reported that they knew at least one person who had experienced a significant health problem due to the COVID-19 illness. Similarly, 22% (612 of 2840) of respondents indicated that they knew at least one person who had experienced a severe health problem following COVID-19 vaccination. With these survey data, the total number of fatalities due to COVID-19 inoculation may be as high as 278,000 (95% CI 217,330–332,608) when fatalities that may have occurred regardless of inoculation are removed.

Rancourt *et al.* found the exact same 0.1% death per dose rate using a completely different method

Age-stratified COVID-19 vaccine-dose fatality
rate for Israel and Australia

Denis G. Rancourt,^{1,*} PhD ; Marine Baudin,² PhD ; Joseph Hickey,¹ PhD ;
Jérémie Mercier,² PhD

On the global scale, given the 3.7 million fatalities in India alone, having vDFR = 1 % (Rancourt, 2022), and given the age-stratified vDFR results presented in this work, it is not unreasonable to assume an all-population global value of vDFR = 0.1 %. Based on

Differences between COVID death rate for vax vs. unvaxxed not statistically significant.

Note: You have to do the p-value calculation yourself. It's $p=.42$, i.e., not even close to statistically significant.

Self, MD, MPH²; Katherine Adams, MPH¹; et al. There are links for 'Author Affiliations' and 'Article Information'. The citation information at the bottom is 'JAMA. 2021;326(20):2043-2054. doi:10.1001/jama.2021.19499'.

Unvaccinated patients accounted for 91.0% (91/100) of deaths among patients with COVID-19 in this study. Death occurred in 9 of 142 (6.3%) vaccine breakthrough cases and 91 of 1055 (8.6%) unvaccinated patients with COVID-19. Progression to death after COVID-19 hospitalization was associated with a lower likelihood of vaccination (aOR, 0.41; 95% CI, 0.19-0.88).

Pfizer's own Phase 3 trial showed people were 31.2% more likely to die in the vaccine group than the placebo group

On a relative basis, the “six-month” mortality rate was 31.2% higher in the vaccine group

Deaths from COVID went up by 39% after the vaccine rolled out in Ontario, Canada

I thought deaths and hospitalizations were supposed to go down?

Why are all the authorities ducking questions about this?

ENHANCED EPIDEMIOLOGICAL SUMMARY

Comparison of COVID-19 Hospitalizations and Deaths in 2022 and 2021

Published: March 2023

Purpose

This report highlights differences in the incidence of COVID-19 hospitalizations and deaths in Ontario between January 1 to December 31, 2022 and January 1 to December 31, 2021.

Please visit the interactive [Ontario COVID-19 Data Tool](#) to explore data from the entire COVID-19 pandemic (i.e., January 2020 onward) by public health unit, age group, sex, and time. For more detailed information on COVID-19 vaccine uptake in Ontario, please refer to the [COVID-19 Vaccine Uptake in Ontario](#) report. For information on variants of concern in Ontario, please refer to the [SARS-CoV-2 Genomic Surveillance in Ontario](#) report.

Highlights

- Differences in circulating SARS-CoV-2 variant characteristics (e.g., transmissibility and immune evasion), public health measures, COVID-19 vaccine uptake, population immunity, and COVID-19 vaccine effectiveness against circulating SARS-CoV-2 lineages impact the incidence of severe COVID-19 outcomes, including hospitalizations and deaths.
- In Ontario, there were a total of 29,524 COVID-19 hospitalizations in 2022 and 22,559 in 2021. The COVID-19 hospitalization and death rates in 2022 were 31% and 39% higher than in 2021, respectively (Tables 1 and 2, Figure 1).

The more you vax, the *more* people get infected from COVID

Cleveland
Clinic study
of 51,000
employees

medRxiv preprint doi: <https://doi.org/10.1101/2022.12.17.22283625>; this version posted December 19, 2022. The copyright holder for this preprint (which was not certified by peer review) is the author/funder, who has granted medRxiv a license to display the preprint in perpetuity.

Figure 2. Simon-Makuch plot comparing the cumulative incidence of COVID-19 for subjects stratified by

The rate of severe adverse events exceeds 7 in 100 (US government V-safe data)

That's not safe. That's not even close to safe. Even drugs that people are forced to take to treat a disease they have don't have a SAE rate remotely close to this.

The more you vax, the *more* people die from *COVID*

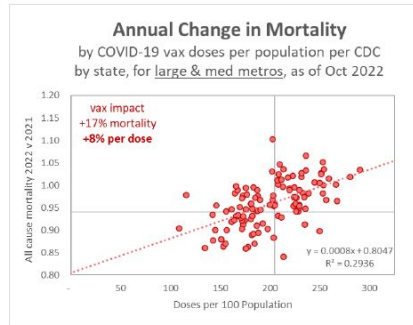

The more you vax, the *more* people die from *all-causes*

High vax regions are showing ~15% higher 2022 mortality than 2021

Segmenting U.S. by state/metro shows vax doses

Correlate with increases to mortality from 2021 to 2022

Regression implies ~14% adverse impact from the vax

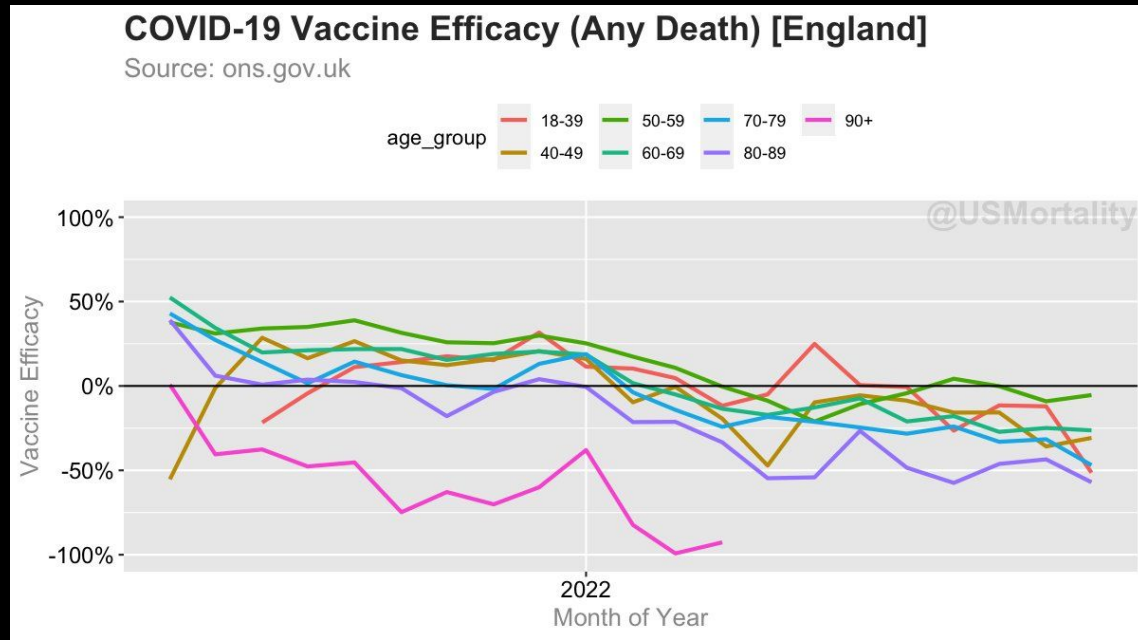

At 7% per dose taking all CDC doses recommended = +28 to 35% mortality

The latest UK data shows vax increases risk of death for all age groups

The latest UK data shows negative VE for all age groups.

Which means it is making it MORE likely you'll die

The US Medicare data, the “gold standard,” confirms MoH data that the vaccines increase your risk of dying over time

How is it possible that the Israeli MOH found the same pattern after dose 2?

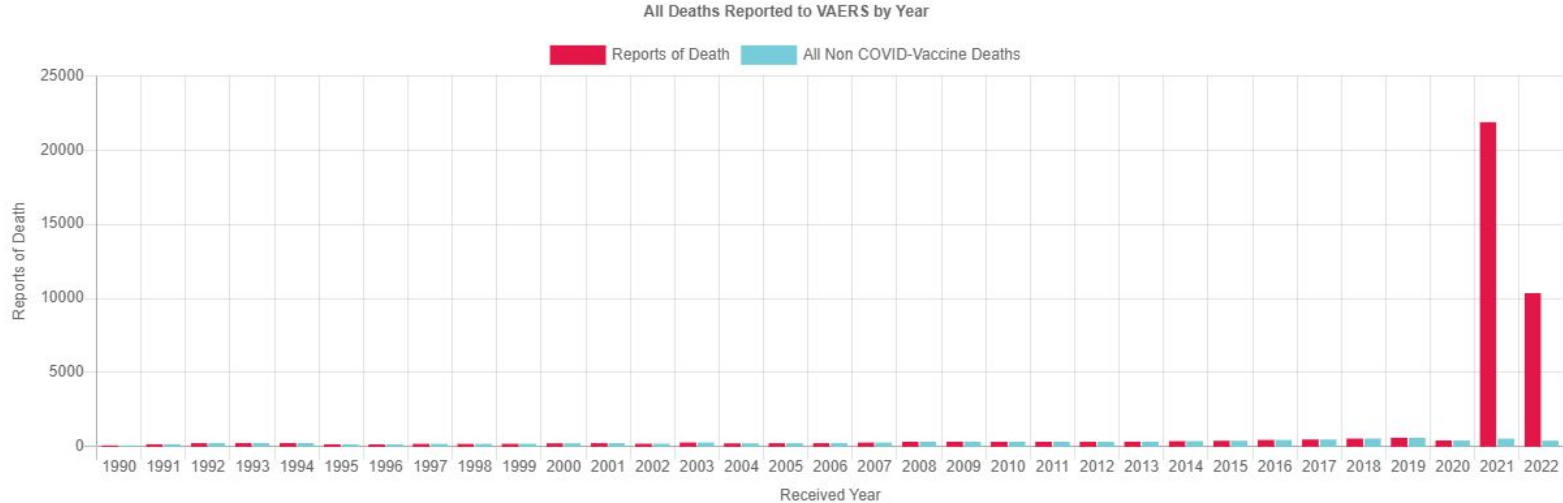

The vaccine is more likely to kill you as time goes on.

Deaths are **only** elevated for the COVID vaccine in VAERS

VAERS COVID Vaccine Mortality Reports

Through September 30, 2022

**YOU
HAVE
THREE
OPTIONS**

1. **Massive fraud/gaming**
2. **Massive overreporting all of a sudden for just the COVID vaccines worldwide in every adverse event tracking system**
3. **The deadliest vaccine in history**

Hint: There is **only** evidence for #3 (and it's overwhelming)

Survey data consistently show vaccine is as dangerous as COVID.

Why isn't the mainstream media asking doing these polls?

Our latest polls show twice as many people died from the vaccine as from COVID

These are third party polls. We don't control the recipients. The people making the assessments of vaccine deaths are people who took the shot, not "anti-vaxxers."

vaccines in 2021!**

How many people have died as a result of a COVID-19 vaccine?

Sarah Caul | October 4, 2021

Categories: Coronavirus

There has been widespread speculation about the side-effects of the coronavirus (COVID-19) vaccines, including, tragically, deaths. But how many people have died as a result of a vaccine and why do different sources of data tell a different story? Sarah Caul takes a look at what the data are showing us.

The mice are not fooled

Are you getting **your kids covid vaxxed**?

No ill wait for the human trials to finish first

Someone is lying to you

Who should you trust?

The data?

Or the government experts?

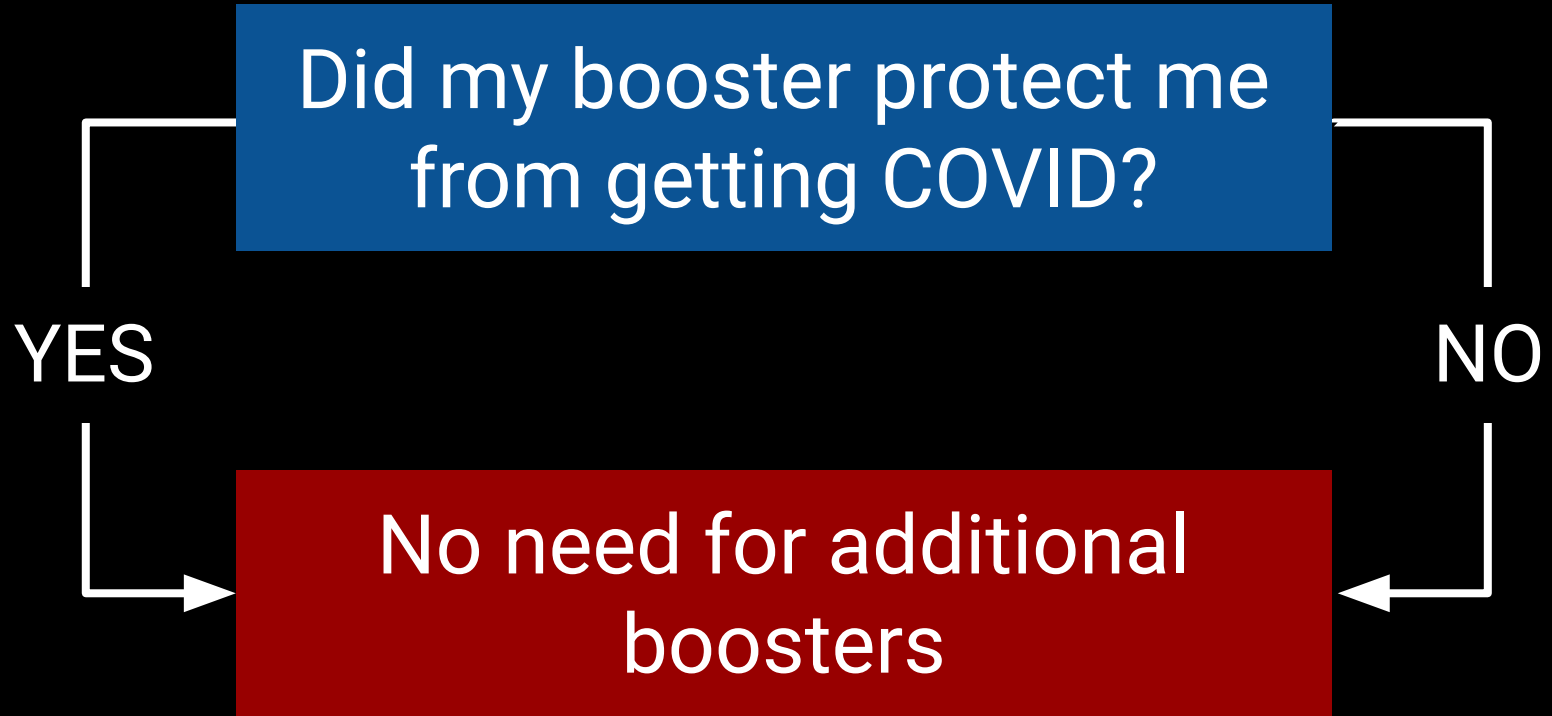

Answer:

The side that wants
a debate.

**For some questions, it doesn't
matter who you ask**

Questions you should be asking

Why isn't the vax-death
data publicly available
from any government
anywhere in the world?

Why doesn't the US government publish the VSD data? Taxpayers are paying for it. Why is it a secret? And why do they stop researchers like Brian Hooker from looking at the data?

If it works so well, why aren't any of the vax makers urging governments to publish the vax-death data?

I offered to bet anyone \$1M that the vax killed>saved

**Nobody in the world was
willing to accept my bet.**

Why not?

**Note: One person (Saar Wilf) did accept at \$500K, but
nobody at \$1M**

Is it because they are so confident the vax works that they are willing to risk **your life**, but not **their money**?

Why isn't Pfizer showing us the histopathology slides on the 21 patients who died in their Phase 3 trial who took the drug that are required to **prove that they didn't die from the vaccine**? Why are they hiding this?

Note: On a relative basis, the "six-month" mortality rate was 31.2% higher in the vaccine group so showing us the histopathology is critical. Why are they hiding these slides?

Without this data, we should all assume that the drug results in a 31% excess death rate until proven otherwise. Where's the proof?

How come **NOBODY** can name a single “real-world” vaccine success story where COVID rates went down **at a nursing or funeral home** *after the vax rollout*?

How can we have an emergency when nobody is dying from Omicron and all the hospital COVID wards are empty?

The End of the COVID-19 Public Health Emergency: Details on Health Coverage and Access

NEWS AND TRENDS

Why Is COVID-19 Bivalent Booster Uptake So Low?

By Staff

Durham, NC—Uptake of bivalent COVID-19 booster vaccines has been underwhelming at best, as pharmacists can testify.

If it works so well, why did the FDA try to keep the safety data secret for 75 years? Aren't they supposed to be working for us?

The Denver Gazette

Judge scraps 75-year FDA timeline to release Pfizer vaccine safety data, giving agency eight months

Kaelan Deese, Washington Examiner Jan 7, 2022

The Food and Drug Administration won't have 75 years to release thousands of pages of documents it relied on to license its COVID-19 vaccine. Instead, the federal agency will have just over eight months to do so, per a federal judge's ruling.

The judge in the FDA case cited a quote from the late Sen. John McCain, that excessive secrecy from a government agency "feeds conspiracy theories and reduces the public's confidence in the government."

Why won't any government "authorities" anywhere in the world agree to debate highly qualified scientists?

Can you name a debate that happened?

Three top scientists in Canada challenged the Canadian authorities to a debate on the science. [Nobody showed up on the other side](#) to debate them.

What caused a 123% increase in ACM in the Philippines on Sept 30, 2021?

It wasn't COVID. There were only 127 COVID deaths that day vs. 2,217 total deaths.

This is unprecedented.

Philippines: Excess Mortality Hit 123%

Filipinos saw their highest excess mortality rate on record 6 months post vaccine rollout.

Texas Lindsay
Mar 5

THOMAS SOWELL

How come we
are all seeing so
many “Black
Swan events”
since the COVID
vaccines rolled
out?

The screenshot shows the top portion of the OpenVAERS website. At the top, there is a dark navigation bar with a hamburger menu icon on the left, the text "OpenVAERS" in the center, and a yellow person icon on the right. Below this is a white banner with a red button that says "Read The CDC Disclaimer". The main content area has a white background with the title "VAERS COVID Vaccine Adverse Event Reports" in large black font. Below the title is a paragraph: "Reports from the Vaccine Adverse Events Reporting System. Our default data reflects all VAERS data including the 'nondomestic' reports. ?". At the bottom of the banner, there is a red text notice: "As of 11-18-2022 VAERS has stopped putting free text field information in the public data for Europe/UK."

What caused over 650,000 excess US deaths* in the VAERS system?

And why won't ANYONE debate me on this?

* [>16,000 excess deaths in America](#) x [41 underreporting factor](#) for the most serious events in VAERS

CDC Finally Released Its VAERS Safety Monitoring Analyses for COVID Vaccines via FOIA

And now it's clear why they tried to hide them.

Josh Guetzkow 
Jan 4

 537

 181

SUMMARY

Why didn't the CDC say anything to the public after >700 safety signal alarms were triggered in VAERS?

And why was the DEATH safety signal covered up for 2 years and they *still* aren't saying anything?

How can a Silicon Valley neurologist have 0 VAERS reports in 11 years and this year have to file 1,000 ?

How come nobody has ever attempted to debunk Ed Dowd's book?

I released the Medicare data which shows the vaccine increases risk of death.

Why hasn't anyone been able to show it shows the opposite?

How can a large geriatric practice go from 11 deaths/yr to 21 deaths in 2022 with an 85% COVID vax rate?

P.S. There were just 5 COVID deaths over 2 years, proportional to the vax %. Only 1 of the 21 dead was unvaxxed.

Bodybuilder And Fitness Author Doug Brignole Has Passed Away At 63 Years Old

By Greg Patuto · October 14, 2022

Doug Brignole enjoyed a career as an amateur bodybuilder before publishing books.

Bodybuilder and Fitness author **Doug Brignole** passed away at 63 years old, according to different social media platforms. The cause of death has not been revealed yet.

Doug Brignole offered his life as the “test case.”

He died a week after he got the booster.

Gort Baringa @BaringaGort

Replying to @DrEliDavid

In other news, Doug Brignole "died suddenly" on October 13th 2022 at the age of 62.

6:50 LTE

< Doug Brignole April 4, 2021 · 🌐

Doug Brignole

I have enough confidence in the vaccine, based on my research, to get it done. Those of you who think the vaccine kills people can use me as a test. If I die, you were right. If I don't die, and have no ill effects, you were wrong, and should admit it (at least to yourselves). Better yet, you should admit that you were misled, and tell the world who misled you, so other people can benefit by avoiding those fear mongers.

What caused this rapid rise in dementia deaths in Australia between June/July 2021?

It coincided with the vax rollout for the elderly.

Why hasn't Pfizer released the results of the clinical trial of pregnant women?

It ended July 15, 2022.

But nobody is curious what the results were?!?!

And why was enrollment limited to 24 to 34 weeks gestation since the CDC said it was so safe?

What evidence was used by the CDC to recommend the vaccine is safe for pregnant women?

The VAERS data was signalling “red alert” for menstrual problems since the very start.

Why were vax>placebo deaths in the Pfizer trial?

How can we be sure that the 4X greater cardiac death rate in the vax group wasn't caused by the vaccine?

Why can't we see the histopathology that was done that exonerates the vaccine?

Reported Cause of Death^a	BNT162b2 (N=21,926)	Placebo (N=21,921)
	n	n
Deaths	15	14
Acute respiratory failure	0	1
Aortic rupture	0	1
Arteriosclerosis	2	0
Biliary cancer metastatic	0	1
COVID-19	0	2
COVID-19 pneumonia	1	0
Cardiac arrest	4	1

How can there be 5X as many exclusions in the treatment group as in the placebo group in the Pfizer trial?

And why doesn't anyone care about clinical trial fraud?

Pfizer-BioNTech COVID-19 Vaccine
VRBPAC Briefing Document

Table 2. Efficacy Populations, Treatment Groups as Randomized

	BNT162b2 (30 µg) n ^a (%)	Placebo n ^a (%)	Total n ^a (%)
Randomized ^b	21823 (100.0)	21828 (100.0)	43651 (100.0)
Participants excluded from evaluable efficacy (14 days) population	1790 (8.2)	1585 (7.3)	3375 (7.7)
Reason for exclusion ^c			
Randomized but did not meet all eligibility criteria	36 (0.2)	26 (0.1)	62 (0.1)
Did not provide informed consent	1 (0.0)	0	1 (0.0)
Did not receive all vaccinations as randomized or did not receive Dose 2 within the predefined window (19-42 days after Dose 1)	1550 (7.1)	1561 (7.2)	3111 (7.1)
Had other important protocol deviations on or prior to 7 days after Dose 2	311 (1.4)	60 (0.3)	371 (0.8)
Had other important protocol deviations on or prior to 14 days after Dose 2	311 (1.4)	61 (0.3)	372 (0.9)

^an = Number of participants with the specified characteristic.

^bThese values are the denominators for the percentage calculations.

^cParticipants may have been excluded for more than 1 reason.

Note: 100 participants, 12 through 15 years of age with limited follow-up, are included in the randomized population (49 in the vaccine

Why didn't the FDA ever investigate credible allegations of clinical trial fraud by Brook Jackson and Maddie de Garay?

Maddie, who was 12 when she got Pfizer shot, is now a paraplegic and has to eat from a feeding tube.

NOBODY ever called. Her experience was not unique.

Why are 6X as many Southwest Airlines pilots dying per year?

Why is there a COVID emergency in Scotland?

National Records of Scotland

All deaths occurring between 01 March 2020 and 30 September 2022

occupation classification	All causes
Caring, Leisure and Other Service Occupations	1,908
Health Professionals	396
Health and Social Care Associate Professionals	171
Health care worker	730
Social care worker	1,140

ALL DEATHS IN HEALTHCARE 4,345

**COVID-19 DEATHS (doctors/nurses)
(non retired 20-64) 0**

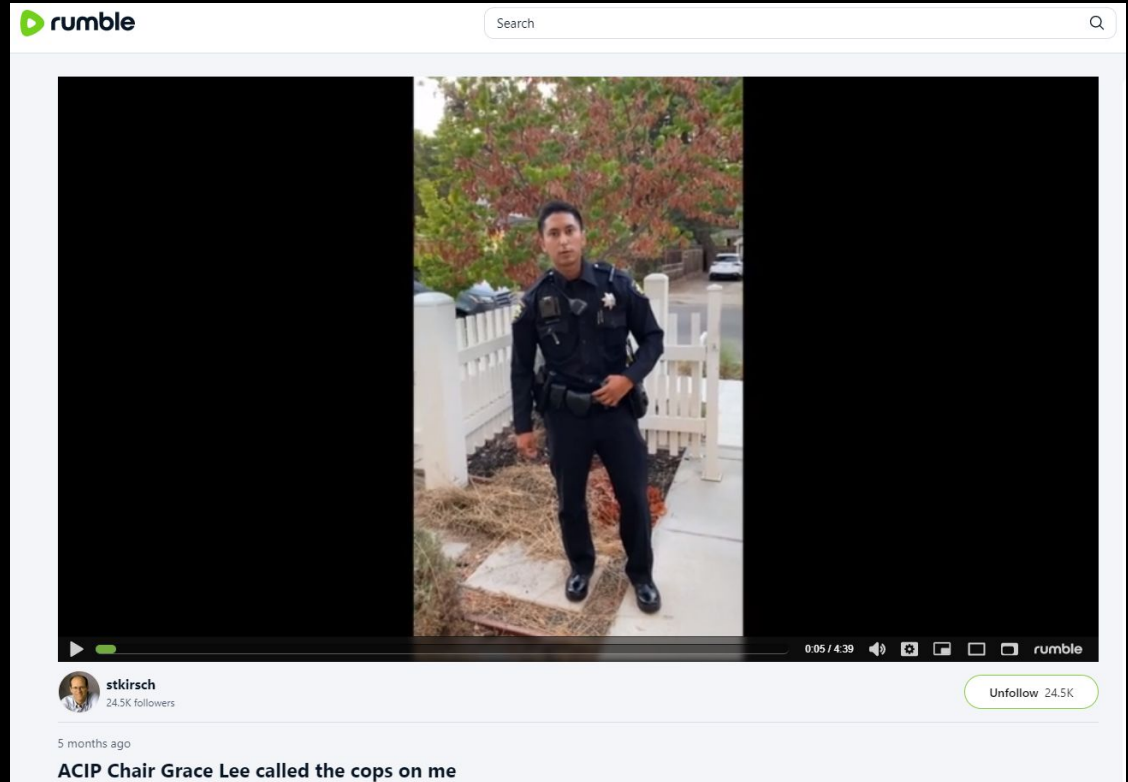

SOURCE NRS:WEEK 40 DATA AND CHARTS

Why isn't the FAA investigating any pilot or FA vax related injuries or deaths?

Why did ACIP
Chair Grace Lee
call the cops
when I asked if
she wanted to
see the Israeli
MoH safety
data?

Why not just say “no”?

The image is a screenshot of a Rumble video player. At the top left is the Rumble logo. A search bar is located at the top right. The video content shows a police officer in a dark uniform standing on a concrete walkway next to a white picket fence. The officer is looking towards the camera. The video player interface includes a play button, a progress bar, and a timestamp of 0:05 / 4:39. Below the video, the user profile for 'stkirsch' is visible, showing 24.5K followers and an 'Unfollow 24.5K' button. The video title is 'ACIP Chair Grace Lee called the cops on me' and it was posted 5 months ago.

Why are so many people dying suddenly?

And why are the fibrous clots *only happening to vaccinated people (or people who got a transfusion)*? Got any counterexamples?

Why is only one pathologist in America doing autopsies that can assess whether the COVID vaccine caused the death?

And getting 100% hit rates?

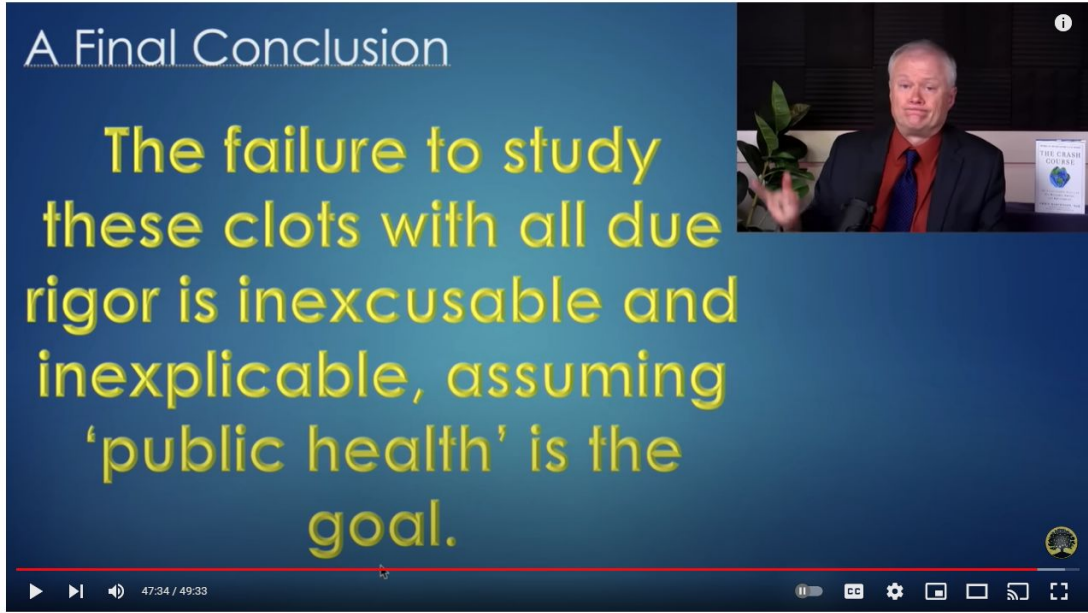

**Why isn't the CDC
telling any pathologists
how to check for
vaccine-caused death?**

Why isn't anyone able to explain what is causing these novel white fibrous clots observed by hundreds of embalmers?

It's only happening in the vaccinated for some reason. Hmmm...

A Final Conclusion

The failure to study these clots with all due rigor is inexcusable and inexplicable, assuming 'public health' is the goal.

47:34 / 49:33

Could These Mysterious Clots be the Cause of Death?

Is there any evidence at all that the regulators took a serious look at any of the safety data that was reported?

How come they didn't raise any red flags?

3 Safety Reviews To Compare

Document Title	Reporting Period	Duration
BNT162b2 5.3.6 Cumulative Analysis of Post-authorization Adverse Event Reports 5.3.6 CUMULATIVE ANALYSIS OF POST-AUTHORIZATION ADVERSE EVENT REPORTS OF PF-07302048 (BNT162B2) RECEIVED THROUGH 28-FEB-2021		~2.3 Months
COVID-19 mRNA vaccine (nucleoside modified) Periodic Safety Update Report (PSUR) 1	19 December 2020 through 18 June 2021	6 Months
Pfizer APPENDIX 2.1 Cumulative Number of Case Reports (Serious and Non-Serious, Medically Confirmed and Non Medically-Confirmed) from Post-Marketing Data Sources, Overall, by Sex, Country, Age Groups and in Special Populations and Summary Tabulation by Preferred Term and MedDRA System Organ Class	As of Date: 16-APR-2022	~16 Months

Video player controls: 1:01 / 48:31

Why are 15-year-olds now dying from heart attacks on a regular basis?

Nobody can figure it out.

Hint: It's only affecting vaccinated kids.

COVID-19 bivalent vaccines are available for ages 6 months and up!

Both the Pfizer and Moderna COVID-19 monovalent and bivalent vaccine are authorized for children 6 months and older. For more information on COVID-19 vaccines talk to your health care provider.

More than **4,000** providers across Michigan can administer the COVID-19 vaccine, including:

Family physicians and pediatricians

Some pharmacies (ages 3+)

Local health departments and federally qualified health centers

Urgent cares (ages 5+)

For more information, visit Michigan.gov/KidsCOVIDvaccine.

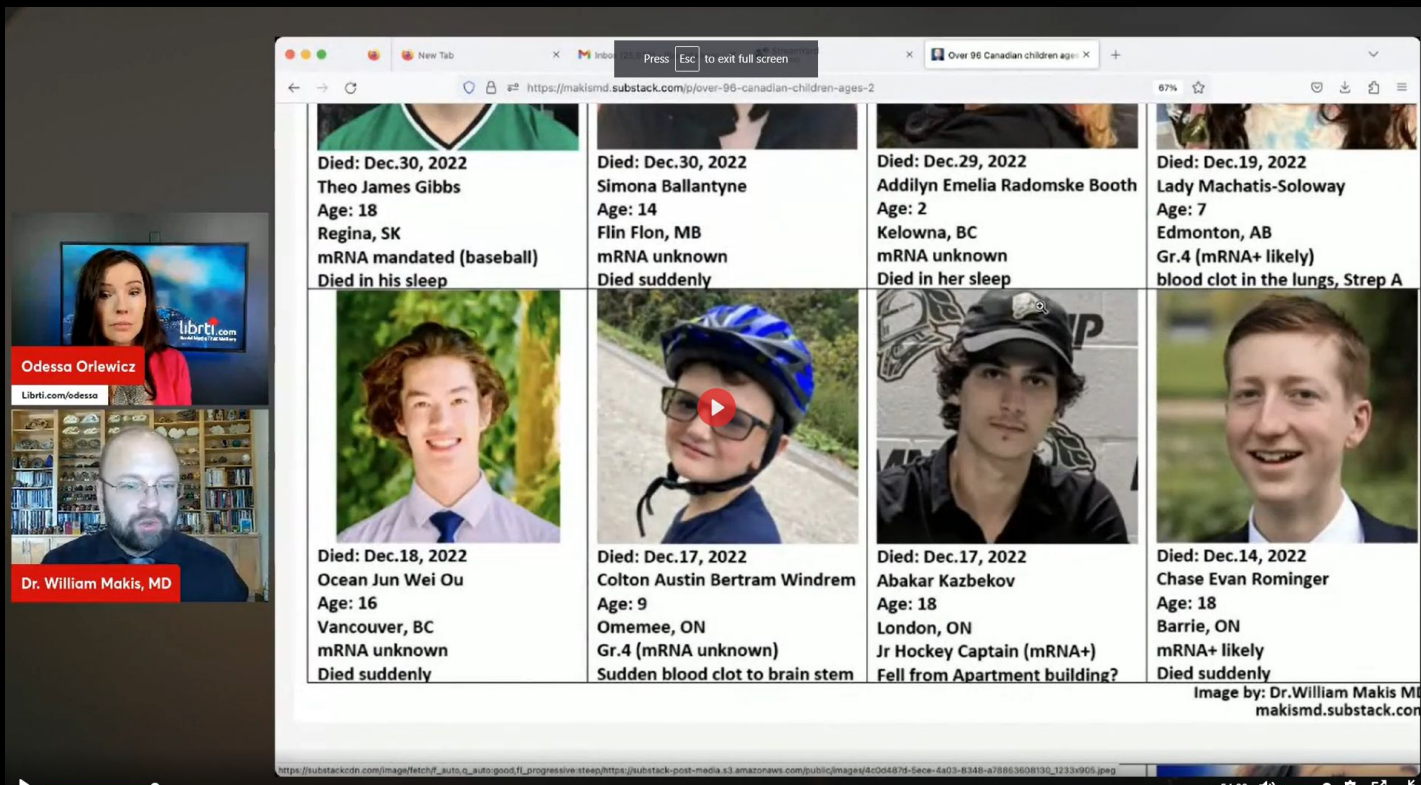

How can this vaccine possibly be recommended for kids anywhere in the world?

Kids have ~1 in 1M chance of dying. So the vax must kill fewer than 1 kid per 10M. To prove this requires a trial of >30M kids.

>96 Dead Children & Counting Post Vax When That Normal Yearly Flu Average Was 9/yr in Canada. Why are the health authorities not talking about this at all? Why did they stop reporting these deaths?

I could only find only a few healthy college kids with no comorbidities who died from COVID in the US.

But 96 vaxxed kids are dead in Canada. We have all their names!

The screenshot shows a video player with two speakers in the top left corner. The main content is a webpage titled "Over 96 Canadian children ages 2" with a URL "https://makismd.substack.com/p/over-96-canadian-children-ages-2". The webpage displays a grid of 8 children's profiles, each with a photo and text detailing their death. The text is as follows:

 <p>Died: Dec.30, 2022 Theo James Gibbs Age: 18 Regina, SK mRNA mandated (baseball) Died in his sleep</p>	 <p>Died: Dec.30, 2022 Simona Ballantyne Age: 14 Flin Flon, MB mRNA unknown Died suddenly</p>	 <p>Died: Dec.29, 2022 Addilyn Emelia Radomske Booth Age: 2 Kelowna, BC mRNA unknown Died in her sleep</p>	 <p>Died: Dec.19, 2022 Lady Machatis-Soloway Age: 7 Edmonton, AB Gr.4 (mRNA+ likely) blood clot in the lungs, Strep A</p>

**Can you give me the name
of one healthy child <12 who
died from COVID in the US?**

How come NOBODY questioned the science behind the “six foot rule”?

I remember after leaving a meeting with Dr. Redfield and some of my bosses that Dr. Redfield and I had a discussion walking in the hallway about the six-foot social distancing rules. I asked if he could explain to me and show me the science they relied on for publishing the six-foot recommendation, which was then becoming ubiquitous across the country, with stickers on the ground at ATM machines, grocery checkouts, and every place you could possibly imagine.

He fixed me with a stare, chuckled, and then said, “What science, Paul? There is no science. Other nations say one foot, some say nine, others twelve. We felt six would sound better, so we went with it. We made it up.”

That was the COVID-19 fantasyland we were all living in, seeing the lies, but unable to stop them.

If masks work, then how do you explain the fact that every single randomized trial failed to show any effect?

Cochrane: “little to no difference”

Wearing a mask that fits tightly to your face can help limit spread of the virus that causes COVID-19

In lab tests with dummies, exposure to potentially infectious aerosols decreased by **about 95%** when they both wore tightly fitted masks

Other effective options to improve fit include:

Cloth mask over medical procedure mask Medical procedure mask with knotted ear loops and tucked-in sides Mask fitter Nylon covering over mask

CDC.GOV bit.ly/MMWR21021 MMWR

I offered people \$10,000 to remove their mask for the duration of the flight. No takers.

Simply stunning how completely brainwashed people are.

They ALL remove their masks to eat and drink on the plane, no problem at all! And they can all get infected through their eyes which nobody covers.

Steve Kirsch @stkirsch · 12h ·

I asked the people sitting next to me on the plane if I paid them \$10,000 would they remove their mask for the duration of the flight? Both declined the offer.

Maybe I should offer \$100,000 next time? This can quantify the amount of brainwashing.

Steve Kirsch @stkirsch · 10h

A lot of people have requested to sit next to me on my next flight. For some reason, I'm super popular now.

85 26 1,117 20.9K

Face masks, at best, are designed to protect the wearer, not as source control → face mask mandates are nonsensical.

The American Society for Testing and Materials (ASTM) Standard Specification for Barrier Face Coverings F3502-21 Note 2 states, “There are currently no established methods for measuring outward leakage from a barrier face covering, medical mask, or respirator. Nothing in this standard addresses or implies a quantitative assessment of outward leakage and no claims can be made about the degree to which a barrier face covering reduces emission of human-generated particles.”

Additionally, Note 5 states, “There are currently no specific accepted techniques that are available to measure outward leakage from a barrier face covering or other products. Thus, no claims may be made with respect to the degree of source control offered by the barrier face covering based on the leakage assessment.”

Why didn't the CDC warn parents that masks create dangerous levels of CO2 for kids?

If the bivalent booster is so beneficial, then why isn't Paul Offit getting it?

He even wrote a perspective in NEJM recommending against the booster due to lack of a measurable benefit.

He's the most senior person on the FDA outside committee!

“I believe we should stop trying to prevent all symptomatic infections in healthy, young people by boosting them with vaccines containing mRNA from strains that might disappear a few months later.”

Why would Johns Hopkins Professor Marty Makary testify in Congress that the greatest spreader of COVID misinformation is the US government?

Robert F. Kennedy Jr. ✓

@RobertKennedyJr

Medical science experts from Harvard, Johns Hopkins, and Stanford testifying before Congress: “The greatest perpetrator of misinformation during the pandemic has been the United States government.”

16.5K Retweets 1,175 Quote Tweets 40.9K Likes

Why don't people trust the CDC?

Why do people think the CDC's role is to protect the drug companies and vaccinate everyone?

Why is it now, for the first time in history, forbidden in America to mention a US Supreme Court decision?

Yellow Lab 1 hr ago

I was recently kicked off a social media account for posting two Supreme Court cases about Covid restrictions. It will be a while longer until this can be more freely discussed.

♡ 1 Reply Gift a subscription Collapse ...

**What ever happened to
“critical thinking”
skills?**

If the CDC were just incompetent, they'd have gotten it right half the time.

But they got EVERYTHING wrong.

FIRST OPINION

Scientists who express different views on Covid-19 should be heard, not demonized

By Vinay Prasad and Jeffrey S. Flier April 27, 2020

[Reprints](#)

Why can't we talk about it?

How are we supposed to resolve our differences if every vaccine advocate in the world refuses to have a civil discussion about it?

STEVE KIRSCH DEC 5, 2022 1,713 1,519

How are we supposed to resolve our differences if all the pro-vax authorities all refuse to engage in a civil dialog?

Jamie Metzl  @JamieMetzl · Mar 4

Our “Paris group” of experts, which includes many leading scientists, has invited most of the leading scientific proponents of the #COVID19 market origin hypothesis to participate in respectful, public, evidence-based dialogues on pandemic origins. So far, all have refused.

4:32 PM

Who will be first to start pointing fingers in the US? It already started in Germany.

“It wasn’t my fault. I trusted the CDC!”

**Why can't anyone
answer any of these
questions?**

Why won't Pfizer
or the CDC
respond to any of
these questions?

What are they
afraid of? The
truth?

Summary

They lied about everything.

**All of their “advice” made no
difference or made things worse.**

Vaccines

Masks

Social distancing

Lockdowns

Mandates

Early treatments

SOLUTIONS

1. **Stop the shots**
2. **Stop hiding the data; mandate data transparency**
3. Ask public health officials these questions in a public forum
4. Listen to those who have been censored

Each and every public health official has THE POWER TO CHANGE EVERYTHING

>>> RELEASE THE RECORD-LEVEL VAX-DEATH DATA <<<

1. Why would you not want to do this?
2. What is the benefit of hiding the truth from the people?
3. What are you afraid of? The truth?

Note: In the US, I released the Medicare data publicly; not a single complaint.

I asked the UK ONS to release the record level data.

They responded! They said that would be a privacy violation.

RE: a simpler way to give the world the data we need

 You replied to this message on 2/23/2023 11:02 AM.

Good morning

Thank you for your email.

We are governed by the Statistics and Registration Service Act 2007 which prohibits the release of identifiable data. Whilst we can provide [bespoke requests](#) for data, we are required to undertake disclosure control to aggregate to ensure the level of information released, for example date of death, date of registration, single year of age, cause, and geography would not identify the deceased.

More information can be found in our [Policy on protecting confidentiality in tables of birth and death statistics](#) and in the [Code of Practice for Statistics](#)

After I explained how the data could be anonymized they **STOPPED** responding to my emails.

FDA head Robert Califf has said “misinformation is the leading cause of death.”

**There is an easy way
to fix this problem**

**Anyone not publicly calling
for data transparency
is not your friend**
