Faculty and Staff,

As you are aware, many Colleges and Universities across Ontario, have chosen to institute a Vaccination Mandate. Georgian College has also made the decision. A lawsuit is being filed by the Children's Health Defense, represented by the Constitutional Rights Center. As a faculty member I am completely shocked by Georgian College's actions.

I am the point of contact for a large, concerned group of Staff and Faculty who feel these mandates are illegal, unjustified, and immoral. If you wish to learn more, please contact me. This message is being sent to as many faculty and staff, as I can reach. Please share this email if you believe Georgian College has exceeded their authority, and if you feel alone, you are not. There are many of us who believe we must exert our Constitutional rights against these unlawful measures. For some of you, this email will come as an enormous relief—reach out to us. For others, it will create anger and frustration. Please keep in mind, this is NOT a threat.
